Calls from Mather in Building D to Cell Phones

Calls to some cell phones from Mather in Building D may receive a message saying to "dial the 10 digit number including area code".

- This occurs whether the area code is used or not.
- Information Technology Branch (ITB) has contacted vendors to troubleshoot.
- What you should you do:
 - Be certain to use the area code when dialing the 916 phone numbers.
 - If the number does not connect, rely on text or email messages.
 - Notifications will be made when the issue is resolved.
 - NOTE - Be certain your desk phone does NOT forward calls to your cell phone, unless it is verified it works from all phones.

SITUATION SUMMARY

Cal OES SOUTHERN REGION

Tractor Trailer Fire, Diamond Bar, Los Angeles County, SPILL: 18-0956

On 02/11/18 at 1356 hours, the California State Warning Center (CSWC) received reports from Los Angeles County Fire Department and the National Response Center (NRC) that a tractor trailer hauling storage tanks containing liquefied hydrogen caught fire due to unknown causes.

- The semi hauler was hauling 25 “tubes” of hydrogen, each tube contained 50 gallons of liquid compressed hydrogen. The total volume was 1000 lbs.
- The fire has been extinguished. The fire department is cooling the tanks with large master streams as some of the cylinders continued to vent gas.
- The material is venting to the atmosphere.
- CSWC made notifications per SOP.

Evacuations

- Per the Los Angeles County Sheriff’s Department Operations Center, mandatory evacuations expanded to 1/4 of a mile on the south & west side of the incident.
- Notices were sent out to 2,271 homes.

Evacuation Centers

WEATHER OF CONCERN

Weather of Concern

- Onshore winds are expected to continue to strengthen later this evening in the Los Angeles mountains into the Antelope Valley.
 - Wind gusts between 40 and 50 mph will be common, with isolated gusts to 60 mph near Lake Palmdale.
- Despite the strengthening winds, only brief critical fire weather conditions are expected this evening due to rapidly rising humidities.

Active Weather Warnings, Watches and Advisories by County:

WEATHER SYNOPSIS BY REGION

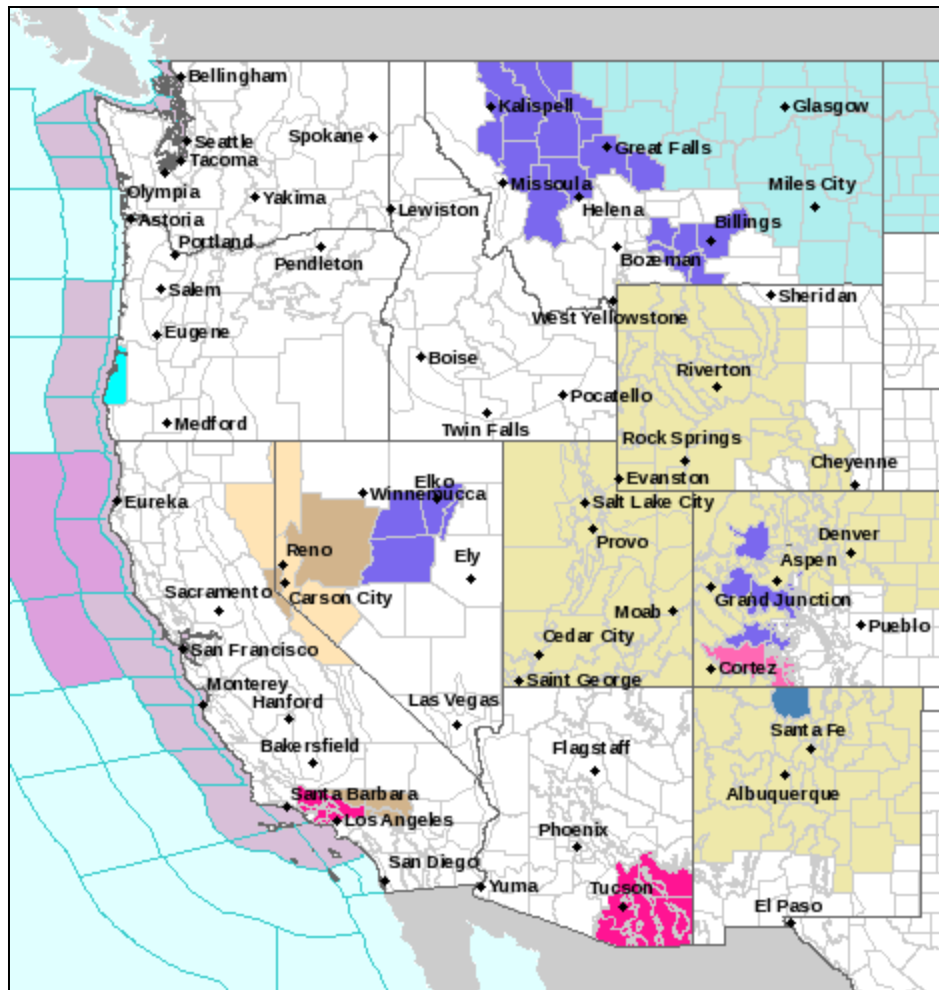

NORTHERN CALIFORNIA

Lighter winds today and slightly cooler. A chance of light rain/snow showers over the mountains tonight and Monday. Main forecast highlights for the short term forecast are light rain for the Sierra foothills and Sierra mountain snow tonight through Monday night. Water vapor and model analysis showed a shortwave ridge of high pressure over northern California with a quick-moving upper level low approaching the Pacific Northwest overnight. Mid to high level clouds were increasing with the increasing stream of moisture ahead of the impending disturbance along with subtle height falls. Today will be seasonable with increasing cloud cover in the afternoon as shortwave ridge breaks down and upper level low moves into the area. Winds will start off calmer in the morning, but speeds will increase over the Sierra high country in the afternoon and evening. Light rain will affect the Sierra mountains and foothills with light snow accumulations mainly south of I-80. Anticipating between 1 and 3 inches, although locally higher amounts cannot be ruled out.

SOUTHERN CALIFORNIA

Gusty Santa Ana winds continue to develop across much of Los Angeles and Ventura Counties this morning. Damaging wind gusts have already been recorded in the Los Angeles County Mountains this morning. Winds have been a little slower to develop as the marine layer has been lodged in over the coast and valleys. Gusty northeast winds now are spreading into the valleys and will spread into the coastal areas through sunrise. With the Santa Ana in place and offshore flow, warmer and drier conditions should be expected today. No changes are planned to the headlines, but wind speeds have tweaked slightly to where the strongest winds are expected.
